

COMPANY PROFILE

Deco Project
Trading

www.decoprojectme.com

We at **DECO PROJECT TRADING** are a skillful team of staff waiting to help you at every stage of your project. From an idea till the execution, whether its commercial, private villas, offices name it and we have the solution for you.

OUR MISSION

DECO PROJECT TRADING's mission is to assure superior customer service by having an open communication with our valued clients. The explanation of the "pros and cons" of different selections and design options are discussed in detail. We include the client in every stage of the design process. We exceed the customer expectation for the project.

Our main primary objective is to exceed customer's expectations for service and product. Increase the numbers of clients served through superior performance and develop a sustainable start up business that is profitable.

Deco Project Trading is a dynamic company known for its Interior Design & Interior Fit-Out.

DECO PROJECT TRADING is a branch from DECO MERVEILLE EST. from Beirut, Lebanon. Deco Merveille established in 1970, has since then specialized itself in the fields of wall and floor coverings material, General contracting as well as a representative agent and distributor of decoration material for several International companies. We are traders as well as project executors.

Deco Project Trading is established in Qatar on 27th of June 2006. It has since then been expanding its line of work and trade. We have recently added an interior decoration design section on January 2008 managed by Eng. Rida Hashem, who has more than twelve year experience in Saudi Arabia designing all types of Hotels, Luxurious houses, Restaurants and Shops.

The Company has a Warehouse and customization facility based in Qatar that is well equipped with modern machinery that are capable of creating impeccable designs as per client requirements.

The smooth integration between the dedicated staff and skilled workers and their diverse skills provides the necessary experience required for the complex business of design and interior fit-outs we have achieved our success by applying the values of trust, commitment and dependability to every aspect of our business. We have earned the trust of hundreds of satisfied customers by providing dependability and timely service. Above all, we are committed to complete customer satisfaction.

All wood materials used in the production of Esta Parket are dried / conditioned within our factory complex to guarantee stability of the board construction.

Esta Parket is the manufacturer of naturally curved hardwood flooring that follow a tree's natural growth.

It's not only about the curves. Picking the right wood, the right grade and even how it looks with finish creates endless variety.

Esta Parket comes in numerous wood species and various quality grades. Combining this with a myriad of finishing techniques and your ideas will make your floor even more unique.

Solid flooring is the soul of Bolefloor, but some conditions require an engineered solution. Bolefloor's engineered product can be used over hydronic floor heating systems.

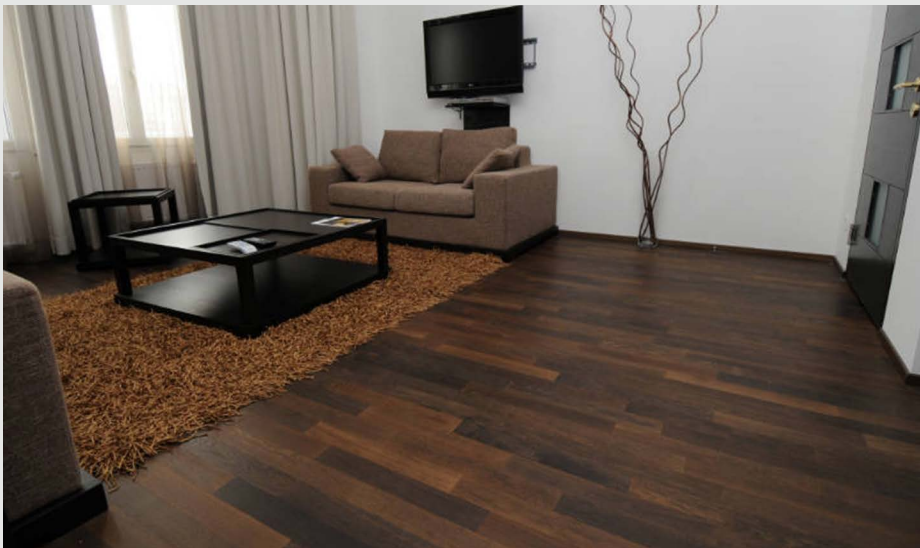

Cidra Hospital
Hard Sycamore Solid wood flooring

Available in different wood types and can be installed in different designs according to place, needs and preferences.

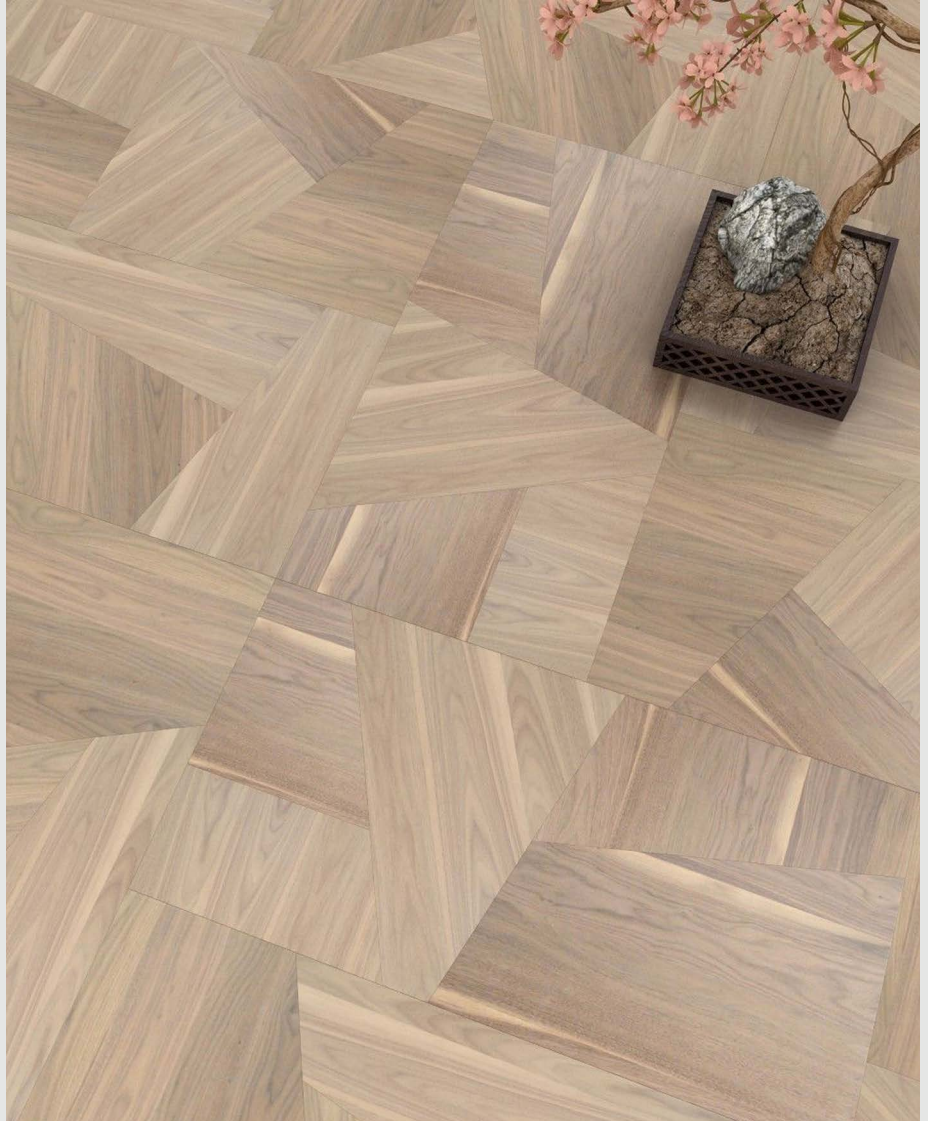

Stöckl Ges.m.b.H is a family-run business situated in Kematen/Ybbs that was founded in 1977. As a producer of wood floors, we offer you an extensive assortment. This includes a 2-layer-finished parquet under our brand name "ACTUS", massive wooden parquet, wood planks and frontal stair edging.

In addition, you find our manufacture line-up the suitable skirtings and parquet paste materials as well as parquet cleaning products.

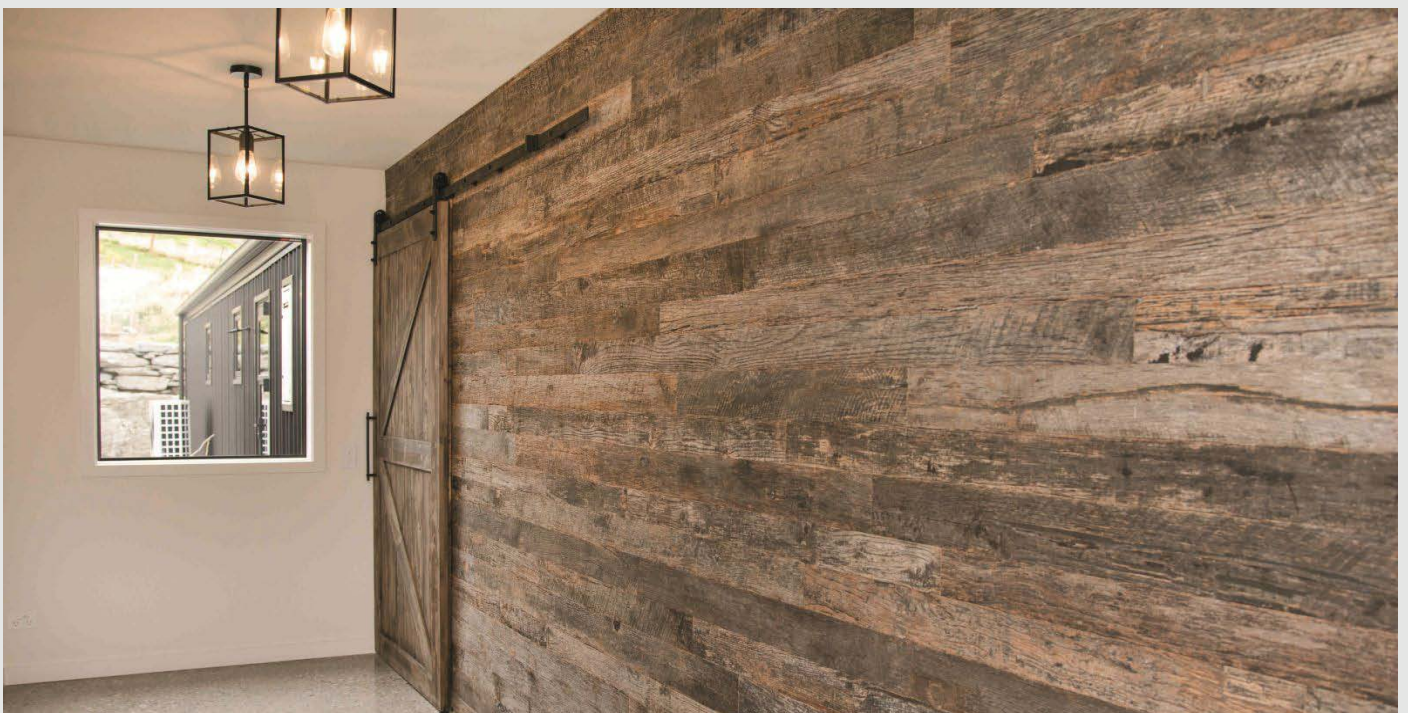

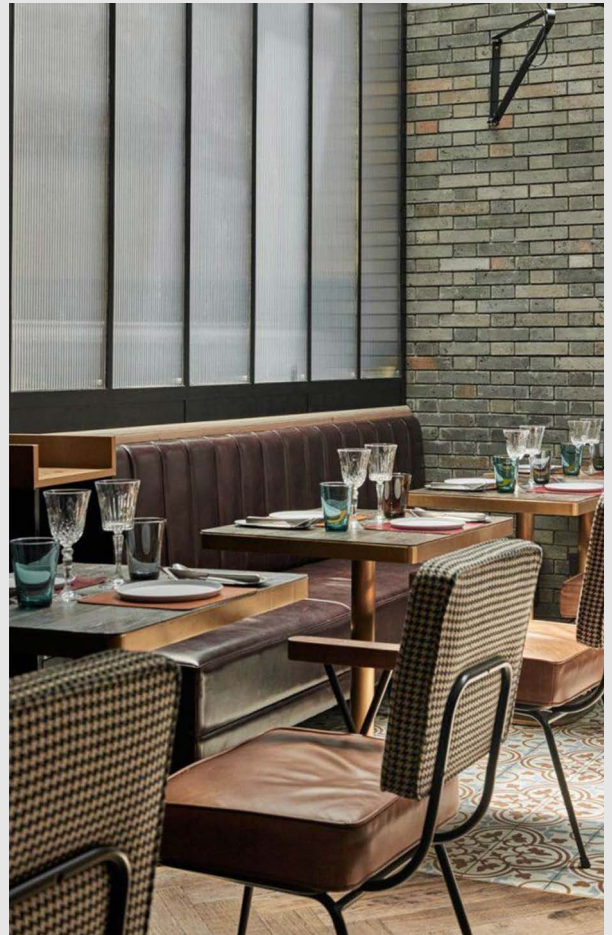

STP offers a material which is unique with its characteristics and effects: wood. Several wood species modulated on a variety of formats: from planks with contemporary taste to new formats that allow special layouts and original combinations - available in various thicknesses to make also renovations easier. W+Design, WoodDeco and WoodMosaic reveal geometries and soft lines to decorate cozy spaces, because wood is not only a material ... but much more.

imondi was founded over a decade ago. The year was 1999, around that same time Backstreet Boys released their single 'I want it that way'. It was a great year.

Since then we've outgrown 5 offices and 2 factories and now operate a 10,000m2 manufacturing facility that is bursting at the seams with creative woodworkers and makers that have been vital in successfully growing imondi into an award-winning flooring company in China.

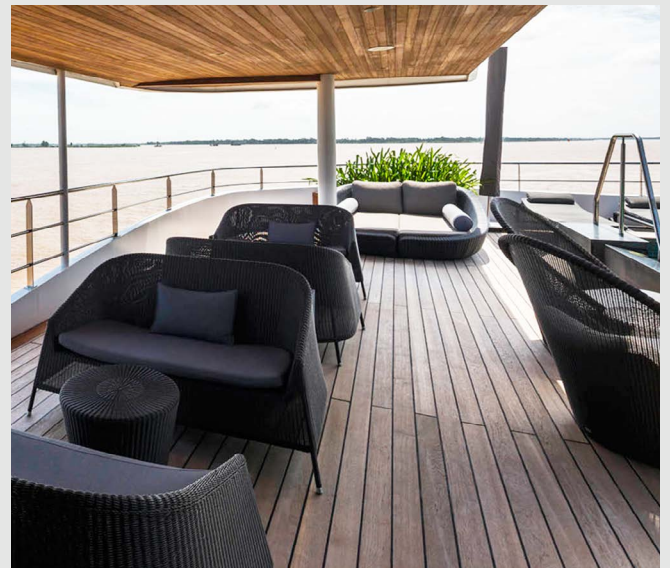

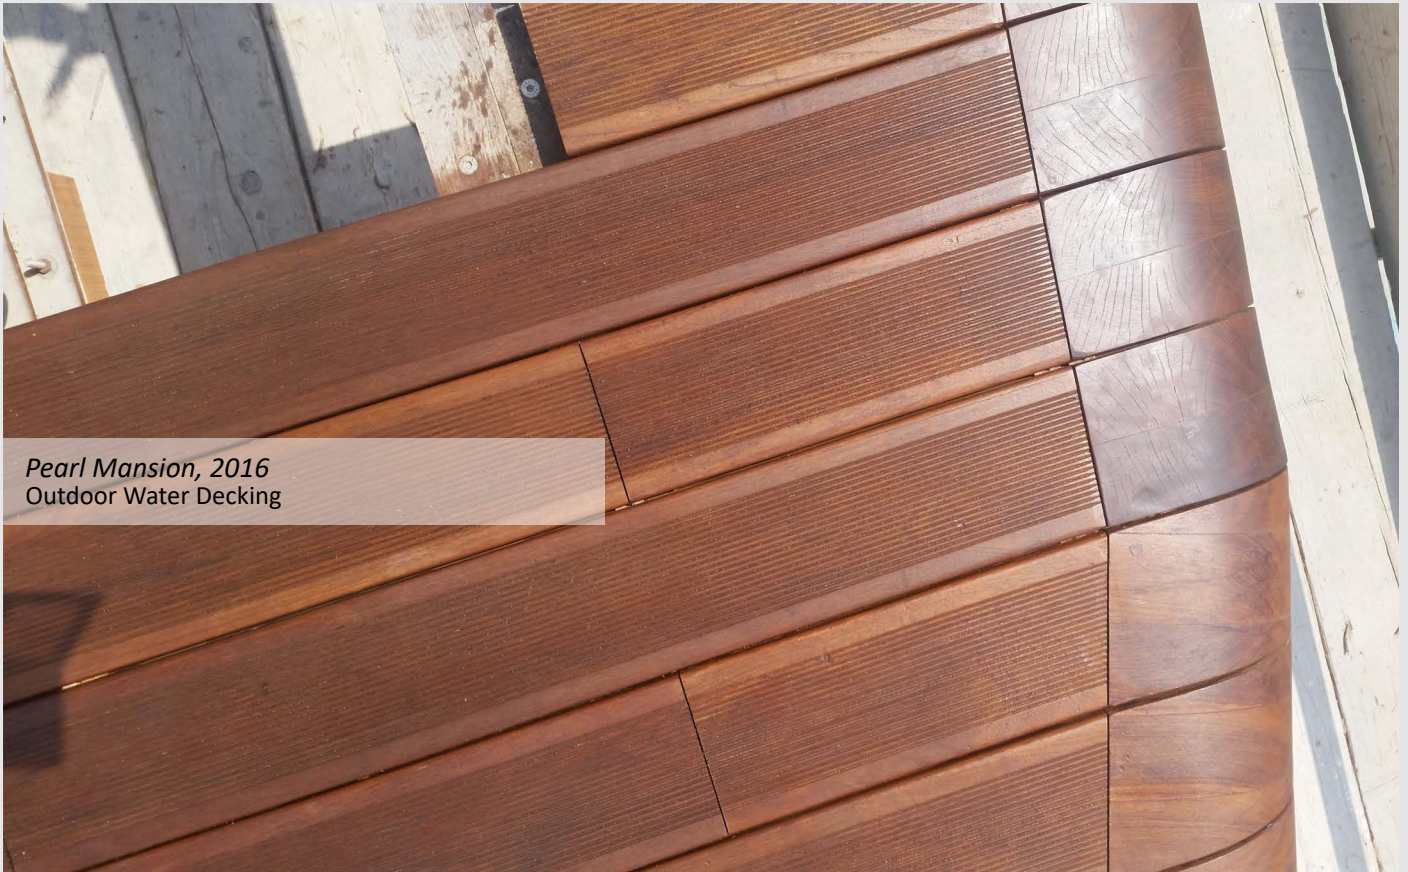

The history of the LARECO brand goes back to the 1950s. For three generations, we have been constantly developing our production, gaining experience and striving for the highest possible quality. As a family business, we care about the quality of all aspects of our business and continue to expand our knowledge and experience to provide the best products. Everything we do at LARECO centers around wood, which is why we appreciate its importance and we have due respect for it.

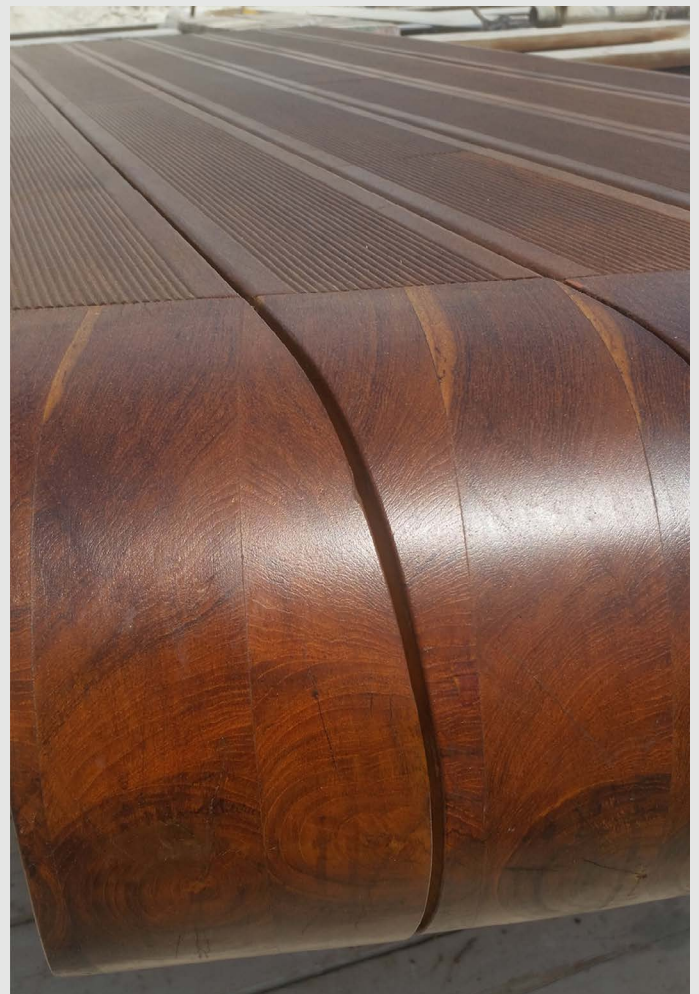

GGI's production facilities occupy more than 6400 square meters of production floor equipped with log cutting, sawmill, band re-saws, timber drying kilns, and other essential machinery & equipment with minimal waste by product.

Currently, GGI employs more than 250 technically skilled and trained employees, including technicians and engineers working in 2 different production shifts. We currently manufacture and export to more than 12 countries located throughout the world.

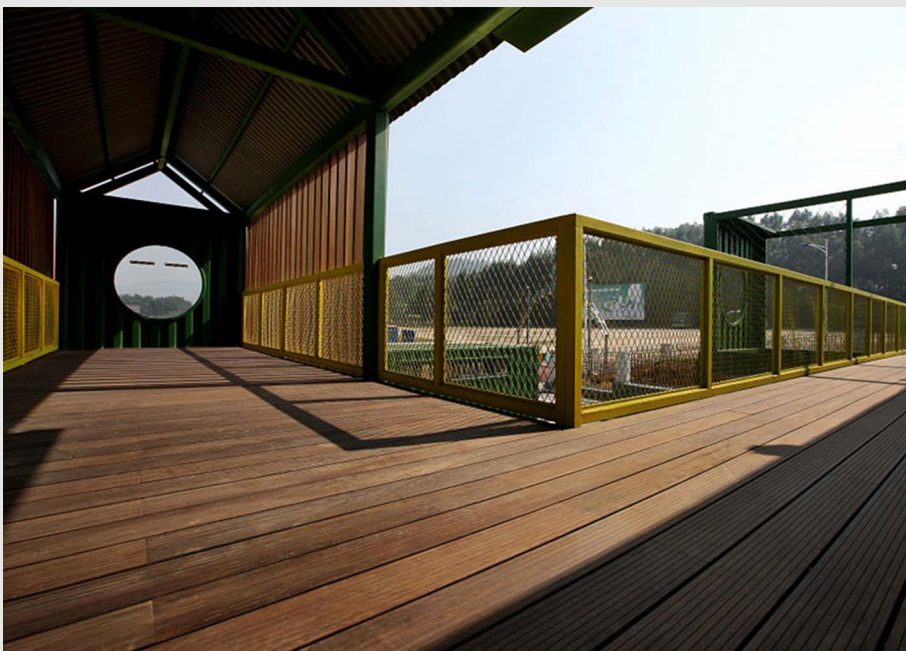

Pearl Mansion, 2016
Outdoor Water Decking

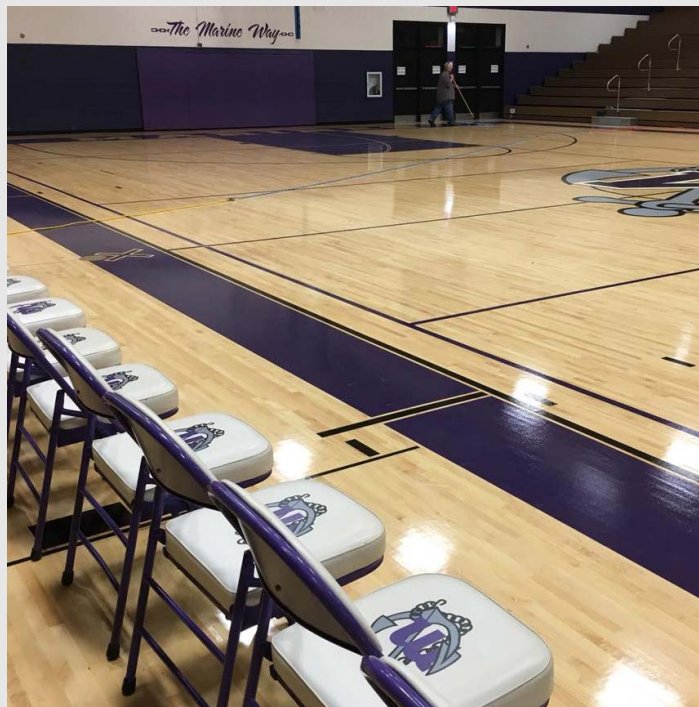

Founded in 1993, the dasso Group is the world leader in the development and production of innovative bamboo products. Headquartered in Hangzhou, China, today the dasso Group has 10 manufacturing facilities and over 1,000 employees, in addition to owning over 2,700 acres of productive, sustainable bamboo forest in China.

For over two decades, the dasso Group has been at the forefront of the development of innovative bamboo products, including bamboo flooring, decking, siding, and furnishings.

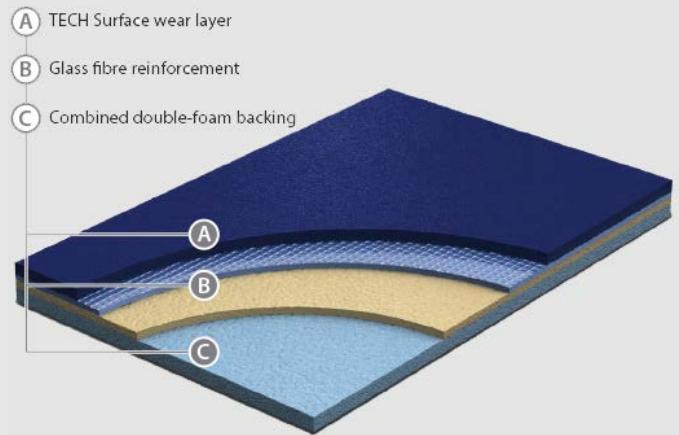

Aacer Flooring, a true northern hardwood flooring manufacturer for the residential, sports and recreational markets, sets high quality standards. Our flooring derives from the forests of northern Wisconsin and Michigan – where rich soil, cold winters and short growing seasons combine to create the perfect atmosphere for producing dense hardwoods of unrivaled excellence and beauty.

Wood is milled and graded to high standards at our 350,000 square foot, environmentally controlled manufacturing facility in Peshtigo, WI. Our state-of-the-art operation allows us to deliver superior products that are durable, consistent, longer in length and beautiful. These qualities contribute and allow for easy installation and less material waste in the field.

Vinyl sport Flooring Available in different types. Can be installed in different designs According the place, need and preference.

Non-directional homogeneous multipurpose flooring. No additional surface treatment needed for the whole lifetime of the product.

Dusit Thani Qatar, installed a class range of quality carpets.

Vendome Qatar, installed a class range of quality carpets and woods.

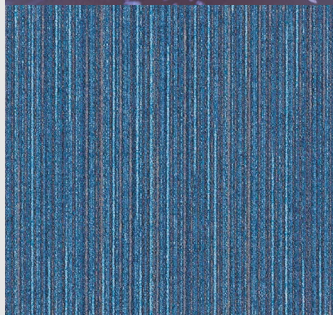

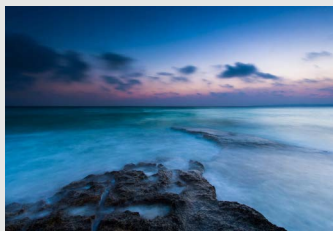

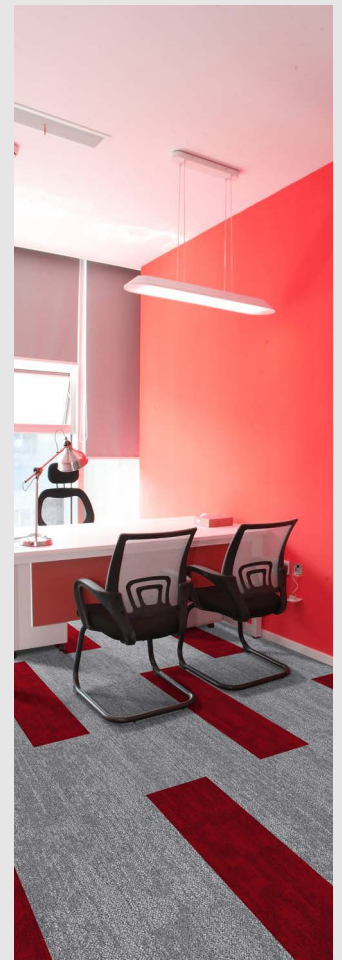

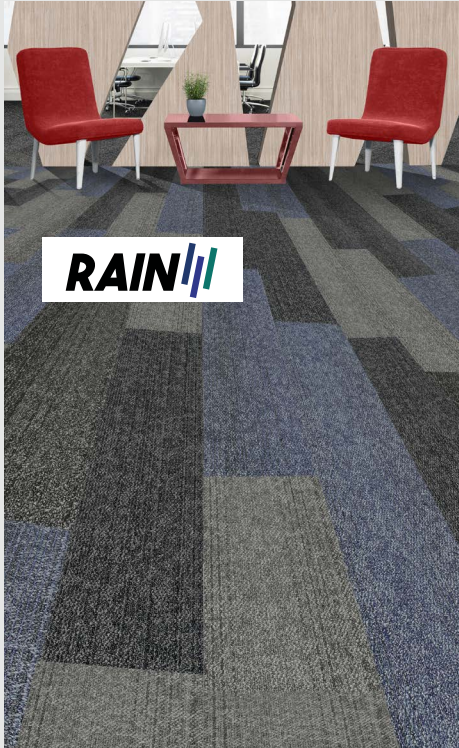

“Shanhua” is the only Chinese carpet industry that has been awarded the “China’s 500 Most Valuable Brands” and has been honored as “the iconic brand of the Chinese carpet industry.”

Loyal to quality and adhere to standards. Shanhua Carpet has ISO9001: 2015 quality system, ISO14001: 2015 environmental protection system and OHSAS18001: 2007 occupational health and safety system certification; China’s first US CRI + PLUS indoor air quality and international environmental carpet certification, EU CE safety certification; China’s first New Zealand wool Bureau, British Wool Association, INVISTA Nylon Carpet, Solutia Nylon Carpet and 3M Antifouling Treatment.

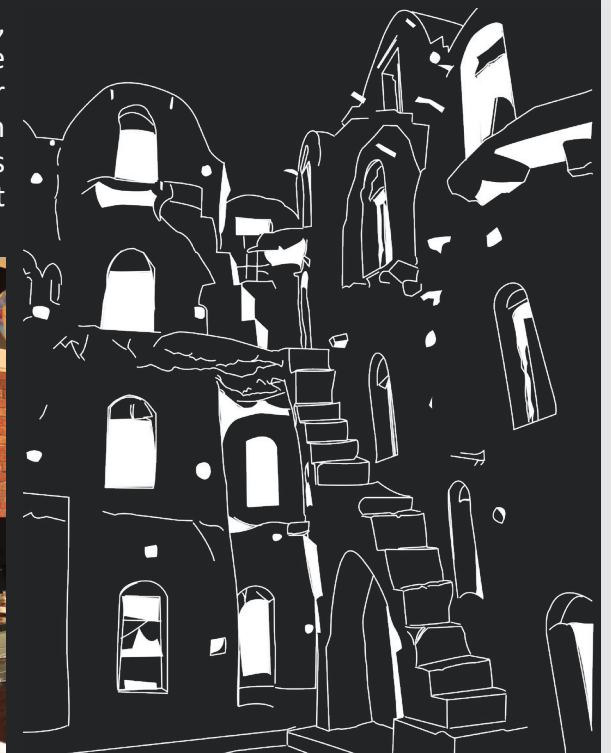

As a general contractor building hotels for most of the major hotel companies across the United States, I was in the perfect position to found US Vinyl Manufacturing Corporation. While constructing a hotel in Myrtle Beach, South Carolina, I was having trouble obtaining quality wallcoverings. The manufacturer sent a liaison to work with me to solve the quality problems. This is the meeting that changed the future of the wallcovering industry.

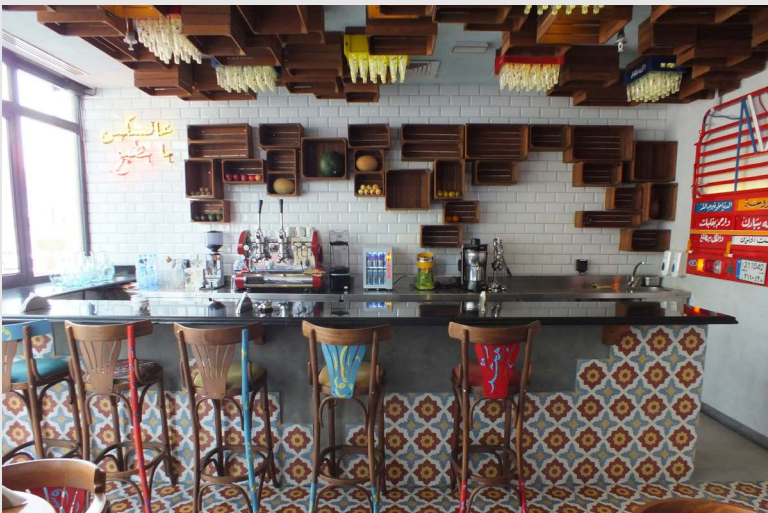

www.brikstones.com

Our product is crafted in the land of Cappadocia, Turkey the land of the early man. Thousands of years ago the Cappadocia's people started carving an incredible chamber and tunnel complex into the soft rock. These people began creating cave paintings, sculptures and artistic stones as expression of art were formed in this Era. It was the oldest "prehistoric" art known.

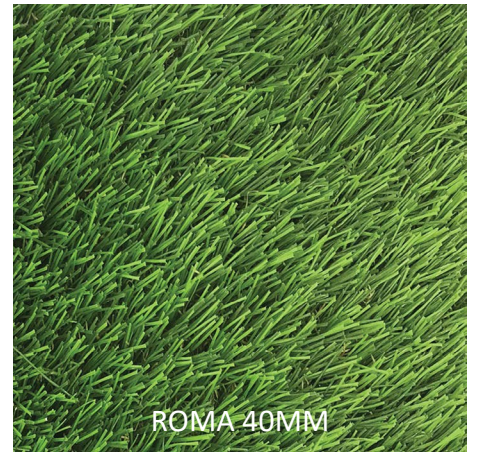

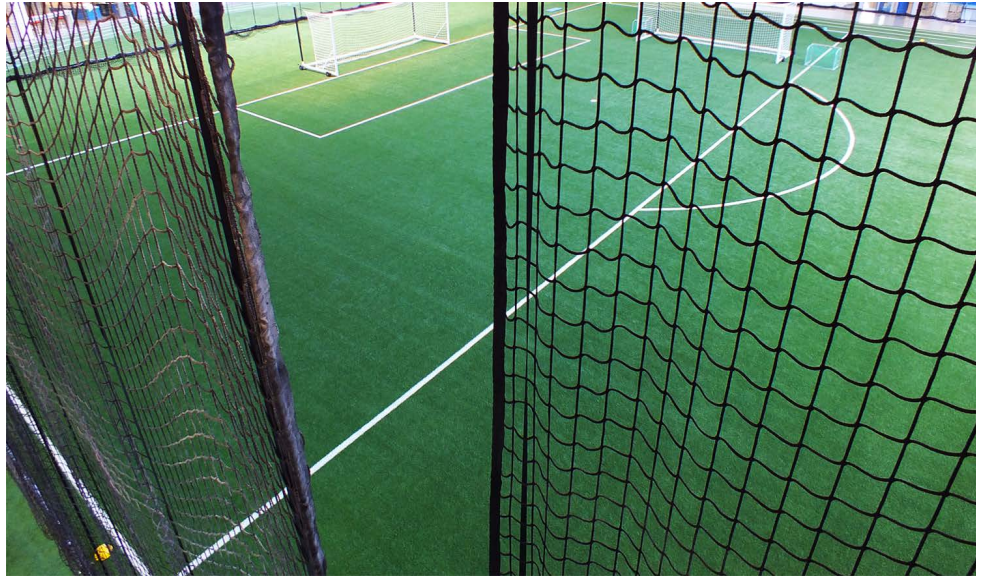

Marble powder, quartz, cement and natural pigment substances are first mixed by high performance mixers and then this mixture is poured into special handmade molds one by one.

MONOGRASS is to transform area to a suitable place.

It improved in Quality in most suits your space, budget, and personal needs (home, décor, leisure, hospitality, kids play area etc.)

- Child-friendly
- NO muddy patches
- Improve Property values
- Easy clean
- 365 days Natural green
- Pet-friendly
- Save Money and tile

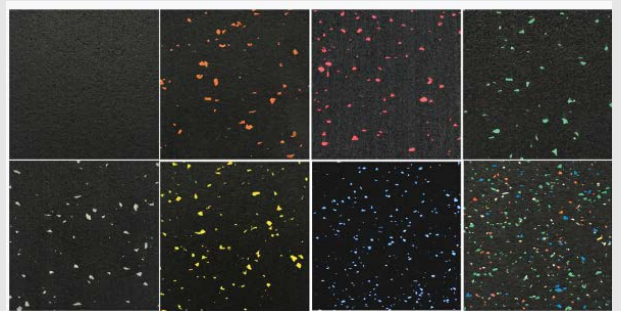

We are acquainted with most types of artificial turf specialized for soccer fields. Our system permits playing on the artificial turf with the same advantages of natural grass. This system has been perfectly manufactured in order to match the interaction between the player, ball surface.

Rubber Floorings

Available in different types. Can be installed in different designs according to the place, need and preference.

Eco-friendly without pollution. It is colorful, anti-skid wear resisting, sound insulation, shock absorption, long life span and easy cleaning.

Product Application:

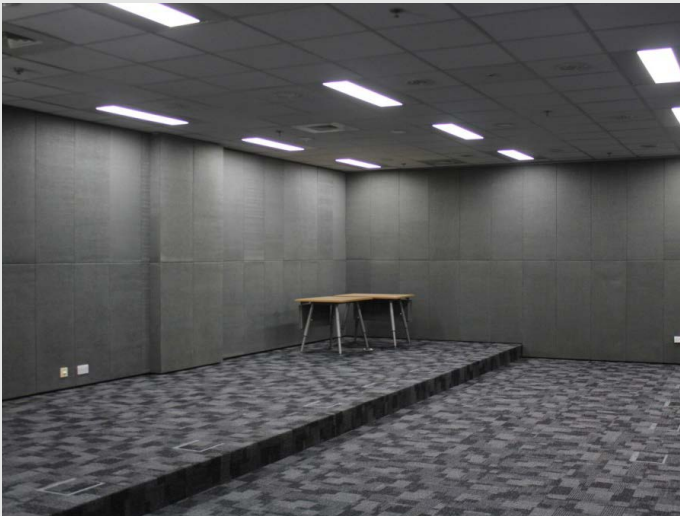

Gym floor, yoga room, fighting sports floor, ice rink, ski resort, indoor golf course, expo floor, can also be laid under other indoor floor for shock absorption.
